

SERVICE TECHNICAL SUPPORT

ROBOT- & UNIT-SERVICE

OUR SERVICES

- We provide preventive maintenance and service according to the maintenance plan

YOUR BENEFITS

- You increase the availability of your systems and robots thanks to our professional service
- You reduce unexpected downtimes of your units

REPAIRS & REVISIONS

OUR SERVICES

- We repair or overhaul your equipment and robots professionally and competently

YOUR BENEFITS

- Our experience is your profit
- Professionally completed repairs and revisions secure your production
- Planned revisions prevent downtime and help save costs

EQUIPMENT TRAINING & ROBOTICS COURSES

OUR SERVICES

- We train your employees directly on the robot unit in your company and can thus pass on our know-how directly to your operators

YOUR BENEFITS

- You can rely on highly trained employees
- Malfunctions can be fixed by your own personnel and thus longer production downtimes can be avoided
- Training strengthens understanding of robotics and motivates your production team to explore new possibilities.

ROBOT MAINTENANCE AND SERVICE CONTRACTS

MAINTENANCE AND SERVICE CONTRACTS

Sensitive systems, such as automation solutions, may last for years, but they also need maintenance and fine-tuning, which we are happy to do for you. That's why we offer you maintenance contracts.

The contracts are individual and correspond exactly to your needs - so you can be sure that you get exactly the service that fits your units.

MAINTENANCE PACKAGE SERVICES

- Professional maintenance
- Fluent support
- Fast response times

BENEFITS OF REGULAR MAINTENANCE

- Trouble-free functioning and maximum service life of the system
- Disruption service / support

ROBOTER OPTIMIZATIONS / RETROFITS

ADDED VALUE THROUGH PERFORMANCE OPTIMIZATION

Have the requirements for your robot system changed over time?
Or does it need to be updated after a few years of operation?

We will be happy to optimize your system according to your needs.

PERFORMANCE

- Cycle improvements
- Commission new references
- Rebuild / add gripper and units
- Reprogramming of robot systems
